

ICIRT RATING

WHAT IS AN ICIRT RATING?

The NSW Government has introduced a world-leading independent rating initiative to help purchasers identify trusted players in the Construction industry.

WHAT IS THE NSW GOVERNMENT OBJECTIVE FOR THIS INITIATIVE?

The iCIRT rating initiative is helping to reform the building industry by identifying trustworthy professionals who continuously lift industry standards and rebuild public confidence in the residential apartment industry. Customers have the benefit of independent assessment that find trusted, rated developer and builders who demonstrate they have the capital, experience and capability to deliver quality apartments.

WHY IS AN ICIRT RATING IMPORTANT?

Ratings give customers the power of choice when buying an off-the plan apartment and allow customers to make informed decisions with confidence.

YOUR DEVELOPER MASSCON, A TRUSTWORTHY PROFESSIONAL

We are proud to be a leading developer and builder who has been independently rated by Equifax Independent Construction Industry Rating Tool (iCIRT). By participating in an open, transparent and auditable process. We have tested all six criteria—capability, conduct, character, capacity, capital, and counterparties—validating our proven track record as trustworthy professionals.
